

NOTICE 10/20

27 March 2020

COVID-19 SPECIAL NOTICE (4)

Dear Home Owner

We have received a number of comments, suggestions and queries regarding the law which prohibits jogging, walking and other activities outside of one's physical residence.

The HOA did not make the law, or have any intention to enforce it. The Estate is merely advising the published Government Notice and official televised clarified measures.

Also, what other countries are doing has no influence on our situation. Other estates that have given such permission for running and jogging, may well be in contravention of the law. Please note that the law is clear, and that the HOA cannot make exceptions or give permission for it to be broken.

However, there has been interviews with the Minister of Police adopting a softer approach to the implementation of the law. He has reportedly said that on a secure estate running and jogging will be allowed so long as the social distancing guidelines are followed.

Until we receive further written instructions or notifications, please exercise your own judgement as to your behaviour and actions.

We are continuously monitoring the situation and will advise if there are any further developments.

Please be sensible and responsible and give your cooperation so we can get through this period in the way and manner intended by the authorities.

Regards

Geoff Anderson and Dirk Uys

"Together we will make a difference"
