Arabella Home Owners Fund

Dear Anneli,

Child Welfare SA Kleinmond would like to thank the Arabella Home Owners Fund for the contribution of R29 000 towards Covid- 19 relief programmes.

The longer we, as South African citizens, found ourselves in Lockdown, the more the need of the community is highlighted to us as a Welfare Organisation. A week ago the Kleinmond Health Workers highlighted the issue of children being neglected due to not all of them receiving a cooked meal or very little. We are doing our utmost best to reach as many children/ households as possible.

Our kitchens at the pre-primary and after schools are already providing food to children. In addition to this, we are now also giving out educational activities to the children as they come to collect food. The teachers are also assessing the emotional well-being of the children.

We have had requests from Primary as well as High School learners with printing of their homework. Since Lockdown started, schools have been sending our homework to the school children via email or WhatsApp. Unfortunately, not all parents or children have data to access their homework. At the office of Child Welfare, we are now printing these homework sheets for the children and they can come and collect it. This is much appreciated by the children and parents. Some of the teachers also asked us to help them with printing, as they are not allowed to be on the school premises. The ideal would have been to have a Wi-Fi Hotspot connected at the Community Hall which is central.

As to when schools may open, remains an open question. As parents, caregivers, social workers and volunteers, we can only pray and do our part in the community to keep our children safe in these stormy waters.

Warm regards,

Theresa Els

Dear Homeowners and residents of Arabella Golf Estate.

We are very grateful for your ongoing generous support. Nobody knows for how long this challenging time will stay with us but what we do know is; we will go on helping those in need. Claudia our Project Manager had a fruitful meeting with two other NPO's in Botrivier who are cooking for the old and sick people and we all agreed that together we are stronger and more efficient. Lucky Point's focus, as always, is the children and their wellbeing. We also do help each other out with food and do coordinate our helping program. It is wonderful to see and feel this strong spirit of lifting each other up. We distribute daily towards 800 meals to the children. Beside that we do produce masks and hand it out to the people of Botrivier. The children love our food which is cooked with love.

Thank you for caring.

God bless you.

To whom it may concern:
Home Owners Association Arabella

Just a short note to thank you for your financial donation in this difficult time, I am sure everyone is feeling the pressure, so we appreciate the fact that you thought of us so much more!

The donation could not have come at a better time as we have 3 newborn babies at the moment, without any staff to help because of the Lockdown but more so to protect our little ones, especially seeing that one of them is HIV positive.

So please when we say Thank you, know that it comes from very very appreciating hearts because...these little humans finish a BIG tin of Formula milk in ONE week!! So know that money is keeping tummies full and bums dry!!

May you be blessed!

Blessings!
